

# Help Improve Roadway Safety in Our Community!

The City is developing the Comprehensive Safety Action (CSA) and Local Roadway Safety Plan (LRSP) to evaluate traffic safety and identify potential roadway improvements.

By reviewing traffic patterns and historical collision data, the project aims to highlight areas where enhancements may be considered. This effort studies the needs of motorists, pedestrians, and bicyclists to support travel throughout the city.

**Take our Survey!**

**Your input is important! Help shape a safer city for all residents by completing the survey.**
